$L = \{1^n 0^n B : n \geq 0\}$ is not regular.

$$x = 1^n 0^n$$

$x \in L$ (suppose that L is regular)

By Pumping Lemma there are strings u, v such that

1) $x = uvw$

2) $v \neq \epsilon$

3) $|uv| \leq n$

4) $uv^n w \in L$ for all $n \in \mathbb{N}$

Let $n=2$ any $n \neq 1$

however $uv^2w = uvw = 0^{2n+1} 1^n$

$j > 0$ $n+j \neq n$

therefore L is not regular.
